ShopEase Shipping Policy

This document is a fictional knowledge-base document created for the Customer Support Agent project.

Shipping Options

ShopEase may offer standard and expedited shipping depending on the customer's location and product availability.

Order Processing

Orders are normally processed within 1 to 2 business days unless a different processing time is shown on the product page.

Delivery Estimates

Delivery estimates are provided at checkout and are estimates rather than guaranteed delivery dates. Delays may occur because of carriers, weather, holidays, or other circumstances outside ShopEase's control.

Tracking

When tracking is available, ShopEase sends tracking information after the order is handed to the carrier.

Delayed Shipments

If an order is delayed beyond the estimated delivery window, the customer may contact support for assistance. ShopEase may investigate the shipment with the carrier.

Lost Packages

If a package is reported as delivered but cannot be found, the customer should first check the delivery location and contact ShopEase support. ShopEase may open an investigation with the carrier.

Address Changes

Customers should verify their shipping address before placing an order. Address changes after shipment may not be possible.
